PREFACE.

**IT IS TO THE INTEREST OF EVERY STUDENT AND
INTENDING BUYER TO READ THIS.**

In presenting a new edition of our Catalogues, we aim to give additional, useful and attractive features.

In this edition we have placed the colonial issues after the parent country, so that all may be studied together and the danger of incorrect attribution lessened. It will also be found more convenient by those who confine themselves to one nation.

The cuts have been placed above each issue as showing the general design of the issue while the particular piece illustrated is indicated by an asterik (*).

The information now added we hope will further aid the collector in the agreeable study and arrangement of that portion of his cabinet of which these pages treat. A numismatic library costing many hundreds of dollars, would scarcely furnish the information and details contained in this Catalogue.

The general scope of work is to supply, with reasonable abbreviations and consistent grouping, a Catalogue of current coins of the world, together with those of the more prominent countries and others having special numismatic interest, of the 16th, 17th and 18th centuries. We do not attempt, nor would it be practicable, or even possible, to make a complete Catalogue or include every country that has struck coins since the mediæval times, to fill the place of Sale Catalogue to put on the market for a small sum; nevertheless it will be found to be the most extensive Sale Catalogue of Silver Coins that has ever been published by a dealer, in any country or language.

Those interested in modern coins will find a list of new issues as received; published in every number of *The Metropolitan Philatelist*, a bi-monthly newspaper published in the interest of collectors.

There are very many pieces, which are unpriced, by reason of their rarity or being seldom in stock. We do not carry a full line of everything; it is simply impossible; but we shall be pleased to quote prices on application, for such as we have or can obtain.

Where coins have been minted at different places, it must be understood that the price given is for any mint we may choose. Where a special one is wanted, the rate may be higher. Some

mints, in certain years and values, are rare. Again, in filling orders where we quote years, as Haiti, 1846-60, we supply that which is the most common. We base the value upon the quantity on hand or obtainable, regardless of date. However, some years are rare, and we charge accordingly.

We sometimes have intermediate grades of U. S. Coins, as, for instance, we may quote fair 50c., good \$1.00, and yet we have one price at 75c., or on uncirculated or proof-specimen at a very much higher price.

Stock is constantly changing through the daily transactions of our business.

A long dash (—) shows where the legend divides, when one part reads upward and the other downward. An upward dash (|) shows that the legend is in lines and so divided.

Dates enclosed thus: (), signify the period or date of issue, when not on the piece.

Our experience is that collectors, when ordering, too often select the lowest priced coins. This is especially the case with the beginner. It must not, however be considered the best bargain by reason of being the cheapest or lowest grade. It affords in most instances what may be termed ordinary specimens, which, to the collector who remains in the field, soon become unsatisfactory.

The best returns are from the choicest specimens; a coin in absolute perfection is the pride of the advanced numismatist.

It is well to enumerate in your order a number of coins which will exceed in value the amount of your remittance.

POSTAGE.—The prices given do not include postage, which should be added at the rate of one cent per ounce, and eight cents for registration. The latter is optional, but if not registered *they are sent at purchaser's risk*. It is much better to make selections the amount of \$1 and upwards, and have them registered, than to send small orders at the risk of ordinary mail. Large or valuable packages should be sent by express.

Orders of less than twenty-five cents' value are respectfully declined.

Remittances should be made by draft on New York or P. O. Money Order, payable to THE J. W. SCOTT CO., L^d, or in registered letter. Local checks are subject to discount.

Orders should be written out plainly with the price of each piece wanted, and the full address given in each letter. Unless postage is remitted we send by express.

We are always prepared to buy coins, and especially fine U. S. and American Colonial Coins. For particulars see the Premium List. Price 10c.

All Coins sold by us are warranted genuine.

A similar work on copper coins is now in course of preparation and will be ready for delivery about December.

TERRITORIAL, OR PRIVATE ISSUES OF GOLD COINS IN THE U. S.

With a single exception (Ephraim Brasher), this series was issued between the years 1830 and 1862, and by far the greater portion from 1849, the period of gold discovery, in California, to the last important development of gold in Colorado, the year following the breaking out of the Rebellion, which undoubtedly curtailed operations; and by the now existing laws of this country there can be no revival of private coinages. 1875 is about the closing year of $\frac{1}{4}$, $\frac{1}{2}$ and \$1 pieces which possessed weight and fineness approximate to legal issues and were current; thereafter followed base representations, charms, bangles, etc., which we do not chronicle or sell. Arrangement is alphabetical, by

proper names found on the pieces (usually on the head where such type is given). Those with CALIFORNIA, SAN FRANCISCO, CALIFORNIA GOLD MINES, etc., without other or further identity, together with those which have neither name nor place, will be found under CALIFORNIA. "In(scription) only," implies that there is no device on the coin. There are varieties in some of the issues beyond the difference in date.

Tree Money.

All have Tree on *obv.* with date above, numeral of value on *rev.*, each within a dotted circle. Of the following, it seems probable that the Willow Tree was the first variety, then the Oak Tree, and about 1662, the Pine Tree was introduced in place of the preceding and continued to the end,

which is recorded as 1682. During all these years the 3 Pence, 6 Pence and Shilling were dated 1652 and the 2 Pence (occurs in Oak Tree type only) 1662.

Experimental on trial piece.....

From the Halfpenny dies.

The copper coins from these dies, it is believed, had their origin in Dublin about 1641. They were brought to New Jersey by Mark Newbie in 1681 as a speculative venture, and were soon thereafter legalized to pass current. Maris states they were in actual circulation for upwards of 100 years.

1804 The dies for this coin are known to have existed, and from them it is believed about 20 impressions have been taken, but we do not think that any were struck in the year the coins are dated, hence we class them as *restrikes*. The dies were destroyed in 1869.

UNITED STATES PROOF SETS

Including the copper, nickel and silver, *complete*. These pieces are struck by handpress, upon burnished planchets, from dies specially prepared, giving the coins a mirror-like appearance; they are furnished by the Mint authorities only during the current year, and at about 50 per cent. above face value. All dies used by the United States Mints are destroyed at the end of each year. Proof coins of the various denominations are met with prior to 1854. Some years are complete, but with this date every denomination appears, and they are consecutive to the present year.

Patron Saints: Andreas, Jacobus, (Iago), Lucas, Maria (B. V.), Michael.

The arms of Spain were quarterly 1 and 4 gules, a castle triple-towered gold, for Castile; 2 and 3 argent, a lion rampant gules, for Leon. In base a pomegranate for Granada. These were quartered by Ferdinand and Isabella in the first and fourth quarters, with Arragon which used the ancient arms of Provence, gold, four pallets gules, impaling Navarre, gules, a double orle, saltire and cross, composed of a chain from an annulet in the centre point, gold, in the second and third. Each of these devices has a symbolic significance, too long to be given here. The sheaf of arrows on the reverse of the coins illustrated below was also a device of Arragon. Letters C. L. refer to Castile and Leon. America discovered in this reign

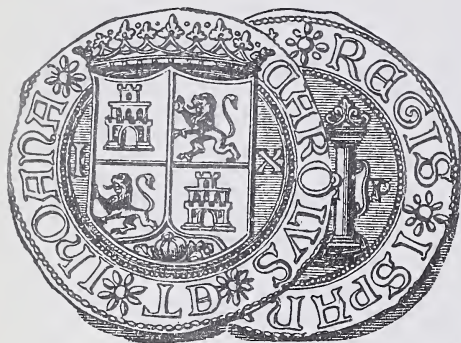

(1492). Isabella died 1504. Ferdinand alone till 1516.

Single letters (mint marks) not forming a part of the legends will be found on most French coins, showing where the piece was struck. A signifies Paris; B, Rouen; D, Lyons; H, Rochelle; I, Limoges; K, Bordeaux; L, Bayonne; M, Toulouse; N, Montpelier; Q, Perpignan; R, Orleans; T, Nantes; AA, Metz; BB, Strasbourg; W, Lille; Y, Bourges; Z, Grenoble. (MA in mon.) Marseilles. Some small devices are also frequently found. A cow denotes Pau; a fish and shipmast, Utrecht. The antique lamp, caduceus, anchor, hand, fleur-de-lis, etc., are Mint-master's marks. Several of these are shown on our cuts.

Naples and Sicily.

Patron Saints: John Baptist, Leo; Maria (B. V.), Michael, Petrus, Petrus Coelestinus.

Arms: Tierce in pale. Dexter, in chief, Naples, azure, semee of fleurs-de-lis gold; in base, Portugal; centre, in chief, Castile and Leon impaling Sicily, per saltire, chief and base gold, flanks argent, on each an eagle displayed gold; in base Anjou; sinister, Medici. On an escutcheon of pretence, France. The arms vary under different rulers, with their matrimonial alliances, generally including, however, the above charges, but it would be impossible in our limits to specify them. The Kings of the "Two Sicilies" also claimed the kingdom of Jerusalem (Hierosolyma, see cut), the cross of which is occasionally placed on their coins.

Charles II, 1665-1700.
